But it is NOT a one for one replacement.

InfoPath and PowerApps both allow you to create custom SharePoint forms but that is where their similarities end.

InfoPath is a third-party product for SharePoint that allows you to customize forms.

PowerApps is not exclusive to SharePoint. Data can be stored anywhere. You can connect data

start from the data source. This is part one in a three-part process:

1. For this example, we'll start from a SharePoint list that stores consulting interventions:
2. Next, we'll select the "Create an app" option in the PowerApps menu:
- 3.
