Its games are in CD-ROM format, and its game library contains several arcade ports as well as original titles. Development of the Saturn began in 1992, the same year Sega's groundbreaking 3D Model 1 arcade hardware debuted. Designed around a new CPU from Japanese electronics company Hitachi, another video display processor was incorporated into the system's design in early 1994 to better compete with Sony's forthcoming PlayStation. The Saturn was initially successful in Japan, but failed to ...
