South America: In Brazil, growth remained subdued at 1.2 percent in 2019, but is projected to accelerate to 2.2 percent in 2020 due to improving confidence following the approval of the pension reform and lower monetary policy interest rates in the context of low inflation. Steady implementation of the government's broad fiscal and structural reform agenda will be essential to safeguard public debt sustainability and boost potential growth.

PARAUAPEBAS, Brazil — The Amazon has been viewed for ages as a vast quilt of rain forest interspersed by remote river outposts. But the surging population growth of cities in the jungle is turning that rural vision on its head and alarming scientists, as an array of new industrial projects transforms the Amazon into Brazil's fastest-growing region.
